

## **BMP #6: Training Employees**

- ▶ Discuss good pollution control practices with all employees at least quarterly.
- ▶ Systematically inform new employees about these Best Management Practices.
- ▶ Designate a spill cleanup monitor for each shift, and post cleanup guidelines in a visible location.
- ▶ Complete the [Checklist for Water Quality Protection](#) in this brochure and share it with employees.

### **In case of a spill or emergency or for more information, call:**
